EASTERN STATES.

The Boston Disaster.

BOSTON, August 30.—The Coroner's inquest on the victims of the railroad disaster, was continued to-day. J. C. Convers, engineer of the accommodation train, was the main witness. His evidence showed that he used ordinary precautions to prevent the accident, though he received no particular caution from anybody. Brown, of the Pullman train, which ran into the accommodation, will be examined to-morrow.

Flood near Albany.

ALBANY, August 30.—Owing to a heavy rain last night and stoppage of the culverts, Quackenbush creek, back of East Albany, rose fifteen or twenty feet. Many families were obliged to leave their houses. Several houses were carried away, and much damage done.

Yellow Fever at Charleston.

CHARLESTON, Aug. 30.—Three new cases of yellow fever are announced to-day. The official report for last week shows six deaths by yellow fever.

Heavy Rains at the East.

NEW YORK, Aug. 30.—Heavy rain storms are prevailing in various parts of the East. Considerable damage is done to railroads and canals.

Odd Fellows' Demonstration.

NEW YORK, Aug. 30.—A grand reception to Dr. John F. Morse of California, Special Deputy Grand Sire of the Grand Lodge of Germany, was given to-night, aided by music by the Independent Order of Odd Fellows of New York. Dr. Morse established lodges in Stuttgart, Dresden, Berlin and Zurich. The reception was intended as a welcome to his native land and to commemorate his achievements in Europe.

The body of the young woman found in a trunk at Hudson River depot on Saturday, has been identified as Alice Bowlesby, aged 22, of No. 42 West street, Patterson, N. J.

Matters in Georgia.

ATLANTA, August 30.—The archives of State roads to-day were turned over to a committee of citizens. This action was the result of a series of prosecutions carried on for several days past, during which the late Auditor, Treasurer, General Ticket Agent, Master Mechanic and several mechanics had been held on bail to answer for frauds on the Treasury. The roads belong to the State.

NEW ORLEANS, August 30.—The steamer *Cortes*, Capt. Whitman, arrived at Southwest Pass this evening with the crew and passengers of the wrecked steamer *Mississippi*. The *Mississippi*, Capt. Henry, which sailed from New York for New Orleans, on the 20th of August, with a full cargo, mostly of dry goods and shoes, valued at half a million dollars, was wrecked off Hilborough Inlet, Florida, on the 24th in a hurricane. All hands were saved; vessel and cargo probably a total loss. The vessel was Clyde built and belonged to W. F. Weld & Co., Boston. She was valued at $150,000.

Suicide and Attempted Murder.

MEMPHIS, August 30.—There was a singular case of suicide and attempted murder on the Mississippi Central Railroad Monday night. A man, name unknown, occupying a berth in the sleeping car with his wife, cut his throat with a razor and attempted to kill his wife with the same weapon, but was prevented by loss of blood. Cause unknown, but supposed to be insane.

Wisconsin Politics.

MADISON, August 30.—The Republican State Convention met to-day and nominated C. C. Washburne for Governor on the first ballot, and M. H. Pettit for Lieutenant Governor. The other present State officers were renominated. The resolutions eulogise the Republican party, endorse Grant's administration, and repeat the principles of all recent Republican conventions.

New York News.

NEW YORK, August 30.—The steamer *Manhattan*, from Charleston, arrived last evening, and was ordered to the lower bay by the quarantine officers. The passengers, fifty in number, will not be permitted to come to the city till Friday or Saturday.

Another examination was made to-day of the house of Dr. Rosenzweig, resulting in finding important letters, blank death and still birth certificates and a long list of prescriptions. The report that the murdered girl was the doctor's neice, is not confirmed. The number of abortionists in this city, of both sexes, is known to be large. The city press demand a general clearing out of their establishments by the police.

The Halifax Regatta.

HALIFAX, August 30.—The fog is increasing and rain has set in. There is small chance of the race taking place to-day. The Paris crew reported to have returned are going to row. Public opinion in St. John drove them back. The feeling against them is very strong.

WASHINGTON CITY.

A Voyage Round Cape Horn.

WASHINGTON, Aug. 31.—A new steamer intended for work on the Pacific Coast, fitting out at Camden, N. J., will shortly be prepared to sail. The opportunity afforded by her voyage around Cape Horn will be made use of for deep sea exploration. The expedition will be joined by Prof. Agassiz, Dr. Thos. Hill, Ex President of Howard College, and L. F. Pourtales of the U. S. coast surveys, who will make observations of the sea bottom and temperature at various depths, and take notice of other phenomena. The vessel will be commanded by Commodore Philip C. Johnson of the U. S. Navy.

BY ATLANTIC CABLE.

French Affairs.

PARIS, August 30.—The *Journal* says Gambetta has withdrawn his proposition for dissolution of the Assembly.

VERSAILLES, August 30.—In the Assembly today, there was a full attendance of Deputies and the galleries were crowded in expectation of decisive action of prolongation of Thiers' powers. Rivet announced that a special committee had agreed to receive an amendment proposed by Dufaure to the decree reported by them on Monday. It was thereupon announced that the Government accepted the decree. Protests were made by members of the left, amidst which it was proposed to have the measure withdrawn.

The Assembly proceeded to discuss that part of the preamble of the decree declaring the Chamber possessed of constituent power. A disgraceful tumult began while Bargenon was speaking, which lasted over ten minutes. It was brought to a close by the President putting on his hat.

Gambetta opposed the assumption of constitutional powers, and declared that he would not even accept a Republic from the present Assembly. He was obliged to stop speaking from sheer physical exhaustion. The uproar was deafening. Several personal collisions occurred between deputies. The first part of the preamble affirming constituent powers of the Assembly was brought to a vote and adopted. Debate continued till to-morrow.

Affairs in Spain.

MADRID, Aug. 30.—The decree of amnesty is promulgated. It applies to all political offences committed in Spain. The preamble says the Government is well aware of the weakness of its adversaries and its ability to repress revolt.

Germany and Austria.

BERLIN, Aug. 30.—The Provincial correspondence says no formal treaty has been concluded between Germany and Austria, but they have come to a good understanding as to terms of peace. The Vienna *Presse* says the entente cordiale with Germany exists and extends indirectly to Russia, as far as is consistent with the relations of Germany with that power.

Miscellaneous European News.

LONDON, August 30.—The Servian Government is busy organizing an army.

The Turin *Gazette* says Garibaldi is well. Repose alone is needed.

BERLIN, August 30.—The *Cross Gazette* says the Roumanian Government intends to submit to the Legislature a bill indemnifying creditors for whose claims the Government is liable.

The New York City loan is not quoted in the official list. The oldest board of Berlin persists in its resolve not to allow the quotation.

PARIS, August 30.—The *Bien Public* announces the payment of the third installment of indemnity of half a million francs completed to-day.

LONDON, August 31.—At the examination of Clarke, American bond robber, the principal witnesses were Bowlsey & Co., American bankers, and Sanderson & Langham, who were victims of the fraud.

Journals to-day contain sharp criticisms on the Navy and its administration.

The Iron and Steel Institute of Dudley, the principal seat of the iron trade in Worcestershire, sends a commission to the United States to report upon the management of blast furnaces.

A testimonial to John Bright is contemplated by the people of the pottery regions.

Subscriptions are opened in England for the relief of the people of Persia. The Minister from there has been named chairman of a committee to solicit aid for his countrymen.

Garibaldi telegraphs from Caprera that his health is better.

Relations of Germany and Austria.

LONDON, August 31.—The conferences at Gastien are confirmed. There is an agreement between Austria and Prussia. The details of this agreement are arranged, but functionaries whose services are necessary to draw up a formal treaty, were not present; thus the secret of the exact terms is better kept. It is stated that the relations between Austria and Prussia called for a more accurate definition than could be made by an exchange of diplomatic notes. The Gastien conference enabled the two Chancellors, by confidential conversations, to reach an understanding of exactly how the interests of the two powers could be promoted to mutual advantage, and how their good understanding might be utilized in dealing with other powers. The Roumanian Railroad difficulty is thus solved in the interest of general peace. This is regarded as a happy augury for application in similar joint action in future difficulties. This league for maintaining peace means war against any power seeking to disturb the peace. Russia knowing this makes vast preparations for war.

The French Assembly.

VERSAILLES, Aug. 30.—The subject of the dissolution of the French Assembly is settled for the present. At a caucus held by the extreme Left, presided over by Gambetta, the party was found so divided that it was determined to abandon the issue.

ROME, Aug. 30.—The Pope, in receiving the homage of the Papal Guard, said: "I cannot name the day of deliverance, but the time is remote when we shall issue together from our prison."

MEXICO.

General State of the Country.

MATAMORAS, Mexico, Aug 25.—The Revolutionists are taking heart, owing to a division among the Liberals.

The church is active, and second rate leaders throughout the Republic are now also organizing for revolution which is deemed inevitable.

The Imperialist chief, Quiroga, is at Laredo, preparing to move into Nuevo. His agents are buying arms. He says the Liberals have ruined the country, that officials are corrupt, taxes ruinous, life and property insecure, people disgusted and desire a change. He says neither candidate will get the Presidency. The great need is a man of conservative tendency.

A letter from Monterey of Aug. 21 says local revolution is imminent.

Goganis, successful gubernatorial candidate, is in prison, by order of the present government, on a charge of perjury, and is unable to get a trial. He has appealed to the people. The revolutionary chief, Petro Martinez, sustains him. All parties await the meeting of the Legislature in September.

CITY MEXICO, Aug. 24.—The *Press* announces the breaking out of a revolt in Oaxaca against the state government. Diaz is in the field with several hundred men.

In a riot against Protestants, at Mosilla, seven persons were killed. Copies of a letter are scattered all over the country inciting discontent among the ignorant.

The election of Juarez is more doubtful than ever. Money and positions are freely offered to Congressmen for votes. Congress will not independent of the vote of the people.

ARIZONA.

The Indian War.

SAN DIEGO, August 30.—The Tucson, Arizona *Citizen*, has the following:

General Crook's expedition reached Camp Apache on the 12th inst. This morning the most important news of the Indian situation here and in New Mexico, came to hand. The news is authoritative and can be relied upon. It is in substance this: The expedition was moving towards the Apaches, when it was rumored that the Indian agents in New Mexico had runners in Arizona, under pay, gathering up caches and families and taking them on to reservations. The new Mexican *Press* denied this, but now there is official evidence of its truth. While Gen. Crook was at Apache, a Justice of the Peace, of Mexican extraction, and an Indian, came to that point with credentials from the Indian agent, with pipes and other official instructions, in effect that their mission was to get the Caches and other Indians to go to the Quasi reserve at Canada Almas. The leader of this delegation acknowledged he had received $1,000 for taking one hundred Caches and old infirm men, women and children to Canada Almas, and that at the same time the Caches were on the war path in Arizona. Gen. Crook's guides and scouts recognized among their paid runners a few of the worst members of the Caches band. They also boasted that it was Caches' tactics to have his force of disabled men go on the reservation to be fed by the Government, while the active ones waged war. When hard pushed, Caches would himself seek Government protection and food. They made no secret of this. They also got $1,000 for making presents, and were to get $3,000 on their success in bringing in Caches. For these reasons, General Crook's expedition has been unable to find any Indians. Their mountain homes are deserted and all their homes abandoned. The able warriors move with great ease and quietness over the plains and mountains. The Indian Bureau, unintentionally, no doubt, is aiding them.

A military department order dated August 14th, Camp Apache, constitutes the troops of Capts. Moore and Stanwood, Third cavalry, a command, to operate against hostile Indians, independent of all posts, and to get supplies wherever most convenient. The expedition is to be commanded by Capt. Guy Henry. Troops are now scouring the country between Camps Apache and McDowell. Gen. Crook, with the rest of his command, is on the way to Prescott via Camp Verdi.

Before leaving Apache the General tested the sincerity of Miguel's large band near that post. He gave Miguel eight days to furnish 50 warriors to fight on our side. They are furnished. Miguel professed peace and now gives the proof of it. Orders have gone out to recruit every horse and mule, and have all pack gearing in perfect order for use at an hour's notice. No thought of cessation of hostilities is entertained. Troops and everybody have confidence that the country will be thoroughly scouted the coming winter. If no adverse War Department orders interfere to change the General's programme, he will have peace in Arizona that can be trusted. Nothing has been heard from Gov. Safford's great prospecting party since it entered Pinal mountains on August 16th.

The Park Question.

PORTLAND, August 31, 1871.

TO THE EDITOR OF THE OREGONIAN:

In various numbers of your paper you have expressed yourself in favor of purchasing the lots on Park street now occupied or claimed by citizens and opening the same to public use. Speculations on paper are not usually regarded as of very great importance unless they are carried out, and then we may feel that their influence on the public mind is for great good or great evil.

As a citizen of Portland, I have looked upon this project of opening the Park as you have proposed, with some solicitude. It is true that the opening of the park streets and the intermediate blocks, will secure to the citizens of Portland the advantages of convenient and pleasant grounds for promenades—laboring man and their families, as well as others; but the question arises, cannot these objects be received in a cheaper manner to our city, than at this time to place upon our property a debt of one hundred and ten thousand dollars? The benefits that would be derived by the property holders on the two sides of the proposed park avenue, as you term it, should not be considered in estimating the advantages of the Park improvement. If the project has any, these ought not, fairly, to be considered among them.

I see, or think I see, that you are endeavoring to interest the masses of our people in favor of your private measure. They are to be brought into its favor by the consideration that the industrial classes of our city, who will for many years live in the neighborhood of the proposed park, from the extremity of Couch's Addition to the extreme of Caruthers' Addition, by the consideration, as you term it, that the opened park would be a grand avenue through the city north and south, furnishing through its length and breadth beautiful grounds for promenades, gratifying to our pride as citizens and the admiration of strangers visiting the city.

Is it not possible that we may pay too much for these advantages? We are not suffering now, especially, by the present condition of the proposed park. Our people find amusements and health elsewhere—and if we have no public walks or promenades, we get along pretty well without them—and perhaps will continue to do so until our population is so large that they can find pleasure and advantage in enjoying the benefits of the great park now owned in the west part of the city. That park at that period will accommodate a great class of our citizens, and can be made, by means of a sum equal to the cost of the park lots, an ornament to our city. It is true that it may be beyond reach for a large portion of our people at this time, but street cars and carriages, private and public, can visit it in a few minutes' time from any part of the city. All the facts here stated ought to be considered in connection with the proposed purchase of the Central Avenue and Park.

CURRENT NOTES.

The Legislature of Georgia is to be asked to protect the mocking-birds. It is asserted that now the young birds are taken from the nests as soon as found and sent to the North or to Europe, and that a sensible diminution in the number of these warblers is noted.

California Democrats are puzzled. For two years they have been insisting that the Fifteenth Amendment gives the suffrage to the Chinese and they'd have none of it. Now their State platform accepts the Fifteenth Amendment, and they are wondering how they shall parry the jokes of the Republicans.

An early death has befallen the members of a California ring. A "reliable gentleman" tells its brief story—how he picked up two dead watersnakes which had partially swallowed each other. Each snake had commenced swallowing each other's tail, and they continued the operation until their heads met.

A correspondent of the Portland *Press* claims that the damage inflicted, directly and indirectly by the grasshoppers in Maine this year must be measured by millions of dollars. In some places both on the Androscoggin and Kennebec, the farmers are turning their starving cattle into their grain fields to pick up what their arch enemy has left.

Civil Engineer W. Milnor Roberts has published a card, elicited by certain complimentary allusions to himself, in which he pays an unselfish tribute to the venerable Edwin F. Johnson, the original Chief Engineer, and at present Consulting Engineer of the Northern Pacific Railroad, who, as early as 1854 made a report upon the route, and has since labored unceasingly for the advancement of the road.

We had thought Jacob Thompson was dead, and now his body has been interviewed by a lively New York correspondent, who found it lying around loose at White Sulphur Springs, Va. The voice spoke rather disparagingly of a sulphuric atmosphere, but thought either Thurman, or Hendricks, or Hoffman would make a good President. To the uninitiated, we would say that Jacob was in Buchanan's cabinet, also in Montreal during the war, and is now taking sulphur baths.

OREGON.

Salem firemen are coming to Portland next Monday to participate in the celebration.

Young Vroom, who accidentally shot his arm off, a few days ago, died at Salem on Wednesday last.

The *Statesman* says that no more boats will run to Salem for the [illegible]. We had not heard of the stoppage.

There are many cases of conflict [illegible] applicants who desire to purchase State lands. Several of these cases will be heard and decided by the State Board soon.

At the Dalles, a few days ago, John [illegible], charged with having killed J. R. [illegible] on the 10th July, was examined before Judge McArthur and held to answer in the sum of $3,000.

THE TERRITORIES.

The Kalama *Beacon* complains that many people have taken homesteads back of that town who do not live on them.

The Olympia *Tribune* has a very flattering account of the arrangements at the new Insane Asylum at Steilacoom.

On Saturday last, James Cawley was found dead in his back yard about four miles from Steilacoom. His body was riddled with buck shot. R. W. Walker, who had made threats against his life, was arrested and held for trial on the charge of murder.

The *Beacon* says: Driving wells for water is a failure in Kalama. In digging wells in the lower part of town sulphurous water is obtained. Kalama may be not far from hell, perhaps,—just across the river, any will think who invest in Columbia City lots.

From the Boise *Statesman*: The Shoshones and Bannocks and Piutes are talking war among themselves. It is the question of jurisdiction over [illegible] land down on the [illegible]. The only impediment to actual [illegible] to be the want of the [illegible] war. For God's sake let them be [illegible] go at it.

The Daily Oregonian.

FRIDAY MORNING, SEPT. 1, 1871.

Litigant Swindling.

The swindling law miscalled "an act to protect litigants," now on the statute book of this State, was suggested, as is well known, by a similar act passed in California. Of course the primary object in passing this law was to secure a further lease of life to moribund Democratic newspapers. Many of these papers were in nearly the last extremity of impecunious distress. The chief Democratic organ of the State was a starving concern which, at no time during its four years' existence, could get enough patronage on its own deserts for its support, and its proprietors became clamorous for the fees that they saw could be obtained by swindling litigants in the publication of legal notices. They went before a Democratic Legislature with this claim, pointing to the example of the California law, and succeeded in their demand. Hundreds of persons of both parties have been made to feel the injustice and heavy exactions of this law for the benefit of mendicant Democratic newspapers. Democrats as well as Republicans every day denounce the outrageous extortions practiced under it, and at the proper time will make a demand for its repeal.

The San Francisco *Bulletin* shows how the act operates in California. It says that the law, instead of protecting litigants, has been found oppressive to them and annoying to lawyers and judges. The same is literally true of its operations here. We quote this extract from the *Bulletin's* article:

> It forces men to patronize papers which they will not admit to their homes, and fixes for them the terms of the patronage. The latter peculiarly places it amongst those very unpopular laws which deprive men of the right to make such bargains as they deem best. It compels poor men, who may desire to appeal to the courts for the redress of wrongs or enforcement of rights, to pay about double the amount which they were obliged to expend before the Democratic party undertook to protect them. Formerly they could make favorable terms with respectable publishers, now all the terms are fixed for them and these are exorbitant. In addition to this, it compels them, under the present state of affairs, to publish in papers of limited circulation. Here, the *Examiner* is the paper clothed with the benign office of protecting litigants. Amongst scores of cases indicating the value of that protection one may be cited. A street assessment of $5 was levied against a man's lot. He did not take the "official" paper, and the first knowledge he had that he was assessed and was being "protected," was afforded by a bill of $40 costs of publication, attorney's fees, etc.

A law which has no other object than to enable party favorites to reap spoils from the public; an act which legalizes extortionate and oppressive charges and compels people to pay them, in order to keep up the newspaper organs of the party in power, cannot be a proper measure. Yet this law is on a footing with the robbery of the school fund, the plunder of the swamp lands, and other legalized swindling of the present State administration.

The Thrifty Democracy.

The *Herald* "sees by a statement in a Radical paper, that the defalcations by internal revenue collectors, since the Radicals instituted that system of taxation, has reached the sum of $2,750,125." From the same source the *Herald* also learned that two-thirds of this sum was embezzled by Democratic collectors whom A. Johnson appointed to carry out "my policy" and strengthen the Democratic party; but that paper has not candor enough to state this fact.

Inasmuch as the *Herald* is so greatly concerned about internal revenue frauds, we hope it will find room to speak of some of Tammany's doings. The $2,750,125 embezzled by internal revenue collectors is almost as great a sum as that stolen by the Democratic leaders of New York, under pretense of buying carpets for the new Court House. Proof of this theft was given by the *Herald* yesterday in its telegraphic columns, to which we would respectfully direct its attention. It would seem that when the Democracy can steal as much in a single item of carpets for a Court House as all the internal revenue collectors, including Andy Johnson's bread-and-butter brigade, have embezzled in ten years, Democratic journals have very little to brag of, particularly when it is remembered that their party stole two-thirds of missing internal revenue funds besides.

The Alleged Defalcation at Olympia.

It has been stated to us by a person who claims to know that the affair in the Land Office at Olympia, about which so much has been said, has been greatly exaggerated. There was an irregularity in the office, but nothing criminal, and the Government has not lost a dollar. A few days ago the *Herald* asked a series of questions about this matter. To these questions the Olympia *Tribune* responds in this unequivocal manner:

> The *Herald* of August 22d contains the introductory of a new editor who has taken up the quill of Mr. Pennoyer. In it he bespeaks at the hands of all persons and parties the exercise of that great charity which is so highly commended by the great apostle of Christianity. We find in a parallel column an illustration of the editor's idea of charity. In it he asks ten questions concerning Gov. Salomon, of this Territory, in which he amplifies the false reports maliciously circulated here some three weeks ago. He appeals to the Radical press for "truthful answers to these questions." Before leaving Olympia, the special agent referred to called at our office, and authorized us to deny the rumors then afloat. We have read the ten questions with great care. In letter and spirit their statements are alike untrue. To one and all we reply—Untrue.

It is urged as a political necessity by the press of the country that the infamous Ring that controls New York City should be destroyed on account of the extent of it corrupt influences. The current number of *Harper's Weekly* says, in discussing this point:

> "The Tammany Ring, by its money, its organization, its ability, now controls the Democratic party as it was once controlled by the slave masters. And every voter in the land may be sure that the Tammany Democracy does not change more than that old slave power changed. The peace and prosperity of the country are now to be perpetuated, as they were a few years ago to be secured, only by prosecuting the Tammany tyranny and corruption as effectually and finally as those of slavery were prostrated."
>
> The Southern States lately, very unwisely, attempted to disrupt the Union.—*Herald*.

It is something to find an Oregon Democratic paper confessing this, even at this late day. In 1861, they showed no weakness of this kind, but boldly proclaimed "Democratic principles" as found in the gospel of secession and rebellion known as Jefferson's resolutions of '98.

A European Commission to examine the Northern Pacific Railroad route is in San Francisco and will come to Portland on the next steamer. This Commission, it may be supposed, is coming out with a view of examining the route on behalf of parties who are proposing to take the Company's bonds.

PACIFIC COAST DISPATCHES.

[SPECIAL DISPATCHES TO THE OREGONIAN.]

CALIFORNIA.

From San Francisco.

SAN FRANCISCO, Aug. 31.—Weather continues warm and foggy.

No news of the overdue Australian steamer up to this time.

There has been less betting on the election in San Francisco than was ever before known on a State election. Neither party cares to give odds and few are willing to stake even bets.

C. H. Engelke, shot by A. F. Patton, at Almeda, is still living. No hopes of his recovery are entertained. It is now believed that Patton was the man who made a murderous assault upon Rev. Wm. Henderson, on Third street, some weeks since, felling him with a club as he was walking alone late at night. It is supposed that he killed cow, chickens, etc., belonging to Kerilo, with whom E. and his wife boarded. He seems to have entertained a hatred against everybody supposed to be friendly to Engelke and his wife.

A ring of speculators who attempted to buy up and control the entire stock of hay in the market has broken, the supply coming forward so rapidly that they quickly became overloaded.

For some weeks horses have been almost wholly unsaleable, really good animals being offered at auction day after day without eliciting a bid of any kind. This was caused almost wholly by the impression that hay was going up to $40@50 per ton. But it is now evident that the supply this season will be unusually large.

INTERIOR CALIFORNIA DISPATCHES.

LOS ANGELES, August 31.—A special from Los Flores is the latest in regard to the Indian troubles. The excitement is still great among the settlers.

Captain Brown requests all citizens to join him with arms, and has sent a requisition to San Diego for arms. Capt. Brown received a letter from Capt. Grant, dated Temecula, July 30th, stating that three Indian chiefs with Olegorio at their head, are at San Jacinto, ready to move. Their forces number about 500 warriors. The Indians are evidently on the war path. The disposition among them is to resist authority. Discontent among them is general and wide-spread, and if not nipped in the bud, may lead to serious consequences. The San Jacinto Indians have just sided with the disaffected Indians of San Luis Rey tribe, and are now on the march to join the latter at Pala.

STOCKTON, Aug. 31.—Grand Republican ovation here. Immense torchlight procession. Booth was received with the wildest enthusiasm. Balconies of hotels crowded with ladies. The procession, including horsemen, numbered several thousand, and occupied eight minutes marching past a given point. At least 300 natives of California on horseback. The multitude was so great that things could not be got into shape for speaking before 9 o'clock. Booth is now speaking and is constantly greeted with applause.

UTAH.

SALT LAKE, August 31.—Another remonstrance against the present high tariffs on the railroad is to be made by miners.

The Mormon Bank of Deseret was incorporated to-day, with a capital of $100,000; Brigham Young, President; Lewis S. Hills, cashier. It commences business to-morrow.

The Fourth Street Question.

A number of the good people of this city were very clamorous for the west side railroad when there was little prospect of its being built, and very severe in their accusations against persons who were alleged to be throwing obstructions in the way of the enterprise. But now, when it is an established fact that we are to have the road, those same people don't want it; or, at all events, they didn't want it to come through the city. Not a word had they to offer against the use of Fourth street for this purpose when the construction of the road began under direction of the old company; they looked on with approbation at the construction of the bridge at the head of Fourth street and at the grading of the street north of the bridge, and never thought of remonstrating against the building of the road by that route through the city. On the contrary they clamored for it and denounced those who were imagined to be enemies of the project. Now, however, when the enterprise is fairly under way and the track is about to be laid, it is discovered that the road shouldn't run through Fourth street, and an attempt is made to hedge the company round with conditions which may make the construction of the road impracticable. Some people, otherwise good enough, are often quite cranky. It has not escaped general notice that those who are making most opposition now are the same persons who were most furious on the subject in an opposite way a year or so ago.

ENGLISH OPINION ON THE ORANGE RIOTS.—The London *Spectator* has an exceedingly able and intelligent review of the Orange riots, and is evidently astonished at the reserved moral force displayed in the signal suppression of the riotous element of New York. It then continues and says:

> Is not the real truth this: that whenever they are interested enough to act or even think on politics—for they had beaten the Irish before a shot was fired—they are supreme, and that they are not interested enough in good government, or pure justice, or the honesty of corporations, to bring their existing strength steadily to bear upon those ends? This is what disappoints us so greatly in democracy as witnessed in New York. Whenever the community rises in a kind of insurrection it always wins, always puts down the wrong-doers, always establishes some sort of intelligible order; but whenever it is unexcited, whenever, that is, nothing is in peril but morality, then it leaves power to the man with the longest head, and the deepest purse, and the fewest scruples. It will not take the trouble to display even the virtues in which it is not deficient, except spasmodically; will not so much as go to the polls to elect men of either party wise enough and moderate enough to prevent murderous scenes like these. Force was no doubt on the side of law, but the use of institutions is to prevent these resorts to force.

Every now and then our Democratic neighbor appeals to Thomas Jefferson as an authority to show that State rights theories, national disintegration and old Democratic dogmas generally, are just the thing. It is in order to inform that paper that Jefferson is no longer an authority with the American people on these matters. They have learned by bitter experience the fruit of his political dogmas. All the trouble this country has ever known came from Jefferson's teachings. The rebels seceded and attempted to break up the Union avowedly on his principles, and made no pretense to any other justification. Since the people of America have seen the result of Jefferson's doctrines they no longer regard him as an oracle on the nature and powers of the Government.

We can scarcely agree with a correspondent who suggests in to-day's OREGONIAN that the city may as well be in no hurry about opening the grand park avenue, but go on and improve the mountain park. In our judgment park avenue would be worth to the city ten times as much as the district park on the mountain ever could be. And in order to open this splendid avenue through the city, and to beautify and improve it, we would go to the extent of selling the mountain park, if the object to be gained could not easily be accomplished otherwise.

Since last spring I have been taking your "Oak Weed Remedy," and find myself much improved. The swelling and pain has left my joints and shoulder and THE BONY GROWTH HAS ENTIRELY DISAPPEARED and I use my limbs and am far better than I have been for years.

That we can confidently recommend and guarantee an entire satisfaction in their use.

THEIR COST is less than pure leads, and covers one-fifth more surface, making them the most economical Paints in the market.

THEIR DURABILITY is unquestioned. They dry hard with a smooth and glossy surface and will not chalk, crack or peel off.

THEIR ADAPTABILITY.—They are already mixed and ready for use and require no oil, turpentine or dryers. Are sold of any desired shade, by the gallon only.

Testimonials:

Gen. James S. Negley, M. C., Pittsburg, Pa., writes Nov. 10, '70: I have no hesitation in recommending the "Averill Chemical Paints" to those who regard economy and durability. It weathers our smoky atmosphere better than any Paints I have tested. The colors are rich and variable. Altogether I find them the CHEAPEST AND BEST."

"JACKSONVILLE, FLORIDA CUSTOM HOUSE.—It looks as fresh and glossy as when first applied. I do not believe any LEAD AND OIL CAN EQUAL IT.
"WM. P. DOCKRAY."

I have carefully compared the cost and merits of the Averill Paints with White Lead and Oil and find 99 cents per gallon in favor of the former.

R. F. DANFORTH'S

PATENTED

PETROLEUM FLUID

Perfectly FREE from the Danger of Explosion.

THIS FLUID, AFTER YEARS OF PATIENT EXperiment, and the expenditure of over one hundred and fifty thousand dollars, has been produced by R. F. DANFORTH, of Cleveland, Ohio, and has been introduced with perfect success.

IT CANNOT BE EXPLODED in a lamp, or in any way, or by any known test.

IT IS FREE FROM GREASE AND FILTH, and will not injure the finest fabric.

IT IS FREE FROM ALL DISAGREEABLE ODOR, and in this respect is preferable for a night lamp.

It gives a purer, more brilliant, and at the same time softer light than any oil or fluid in use, and is fully equal to gas light.

IT DOES NOT SMOKE THE CHIMNEY in the least.

A gallon of it will burn as long with the same heigth of blaze as Kerosene.

It is more easily extinguished, when ignited, than Kerosene.

It is strictly pure, containing no mixtures or chemicals, burns in an ordinary Kerosene lamp, with simply changing the burner, with or without a chimney.

THIS FLUID is now on Exhibition at the

LAYING THE CORNER STONE OF ST. LUKE'S CHURCH AT VANCOUVER.—The ceremonies of lay ing the corner stone of St. Luke's Church cam off at Vancouver yesterday. Pursuant to an nouncement a large number of excursionists pu chased tickets and came on board the *Vancouve* chartered for the occasion, at her wharf at th foot of Washington street. At 10 o'clock th boat steamed away down the river for Vancouve which place was reached in about an hour and half. On landing the excursionists proceeded i a body to Edding's Hall, where a splendid lunc was set. To this, all did ample justice, as th morning's exercises gave a new zest to the appe tite. As soon as the collation was over, the cler gy, accompanied by the crowd, proceeded to th grounds where the proposed church edifice is t be erected. Preparations were soon completed fo the ceremonies. Bishop Morris, accompanied b the associate clergy, vestrymen and invited guests soon after arrived on the grounds. Those par ticipating in the ceremonies were Bishop B. Wis tar Morris, of Portland; Rev. C. A. Bonnell Salem; Rev. J. R. W. Sellwood, Milwaukie Rev. John W. Sellwood, Oregon City; Rev. Geo Burton, Portland; Rev. John Rosenberg, Port land; Rev. A. S. Nicholson, Vancouver; Rev. L H. Wells, Walla Walla; Judge M. P. Deady Gen. Geo. P. Ihrie, U. S. A.; S. Ellsworth, Eu gene City. At the time of the laying of the ston the Bishop, with the clergy, the wardens and ves trymen of the Parish, came to the grounds i procession repeating the 122d Psalm. After al had assembled around the stone, Bishop Morri delivered the opening address, followed by a appropriate prayer. Rev. A. S. Nicholson, the proceeded to read aloud the different articles de posited in the box, as follows:

Holy Bible; Book of Common Prayer; *Pacifi Churchman*; *Oregon Churchman*; Spirit of Mis sions, Home and Abroad; Journal of the Annu Convocation of Oregon and Washington, for 1870 Church Almanac; Catalogue of St. Helen's Hal and Bishop Scott Grammar School; *Vancouve Register*; *Kalama Beacon*; *Northwestern Home* and various coins and devices.

At the conclusion, the Bishop placed the bo containing the deposits in the stone receptacle After this was done, he struck the stone thre times sharply with a hammer, consecrating as h did so, the proposed edifice to the service of Al mighty God. Rev. C. A. Bonnell, of Salem, ad dressed the Clergy and people assembled for a few minutes. This was followed by a short ad dress from the Bishop, an anthem, *Gloria in Ex celsis*, by the choir, the concluding prayer by th Bishop and the

BENEDICTION.

St. Luke's Chapel will be, when built, 35x5 feet in the clear; the tower will be 12 feet square and project ... feet into the nave at southeast corner; the chancel will be 16 feet feet wide by ... along the entire length of the building. It will be built after the Gothic style of architecture, of wood. The windows will be of stained glass. The building will cost, when completed, in the vicinity of $5,000. As this sum will be rather difficult to raise at once among the membership, it is the intention to enclose the building so that service can be held in it and finish it as rapidly as the means of the pastorate will allow. After the conclusion of the ceremonies.

THE EXCURSIONISTS

Started for this city at 2 o'clock on the *Van* ... They all reached home in safety and in the best spirits and humor possible, well pleased with the incidents of the excursion.

CATHOLIC CHURCH.—Work has been commenced on the Catholic church at the corner of Third and Stark streets. It is the intention to enlarge the church edifice instead of building a new one, as it is found of insufficient capacity to hold the increasing membership. The walls of the principal part of the building will be moved out until parallel with each of the ends of the wings. This will increase the size of the building very materially and make but one large room. This enlargement will, it is thought, meet the requirements of the church for some time yet; or, until the congregation consider themselves able to build a cathedral which will be a source of pride to the church and an ornament to the city.

PROF. CHANEY will deliver a free lecture this evening at Oro Fino Theater on Astronomy, Astrology, Free Masonry, Mythology and the Bible, show... the intimate relation which these subjects have to each other. Also, will cast a horoscope and delineate a nativity according to the ancient rules of astrology. The ... students in astronomy, clergymen and ... are especially invited to be present, as well as all who are desirous of "more light" upon the mysteries of the past.

GUSSIE TELFAIR.—This steam propeller reached the wharf yesterday morning from Victoria and way ports. She brought the following list of passengers: Mrs C A Cunningham, Miss G Cunningham, Miss A Cunningham, Miss T Calhoun, Miss M Lacey, Miss A F J Hyland, Mrs Wm Charles and 4 children, Miss Hayes, Capt C P Crandall, D C Ireland, J L Saunders, Pat Mc Andre, D Hyne, H Grase, Rev F E Hyland, Lt O'Connor, J McDonald, Wells, Fargo & Co's Mes senger, and seven others.

BRISTOLIAN.—The ship *Bristolian*, Middleton master, from San Francisco, and loaded with rail road material, crossed the Bar Wednesday even ing. From Bristol to San Francisco she was one hundred and sixty four days, and fourteen days from the latter port to Astoria. She draws nine teen and a half feet, and has on board twelve hun dred tons of railroad iron, bars, etc. She comes consigned to Messrs. Hewett, ... & Co.

COUNCIL MEETING.—The City Council will hold an extra meeting on next Monday evening. The object of the meeting will be to confer with the President, Vice President and Superintendent o the Oregon and California Railroad Co. in rela tion to the establishment of the grade along Fourth street.

DIFFERENCE OF OPINION.—The reported case of small pox at Walla Walla is thought to hav been prematurely made. But one case, if any re ported, and about that there exists a difference o medical opinion. It will probably result in noth ing serious.

FOOT CUT.—Yesterday one of the men engage at work in sharpening piles at Flanders' wharf accidentally cut his foot with an ax, inflicting a severe gash. He was taken to the New York Ho tel, and Dr. Glisan summoned to dress the wound.

GOING FOR ANIMALS.—Mr. Dave Long, the clown attached to Mlle Jeal & Co.'s circus, wil leave for San Francisco on the next steamer, t bring up several cargoes of wild animals, whic are to be exhibited at the State Fair.

MORE FIRE.—We learn that fires are ragin among the timber environing Kalama. It woul be decidedly out of luck if that devoted place wa to be left a blackened waste after the recent inun dations there.

RISING.—Parties from the Dalles inform us tha the burnt district at the Dalles is being built u quite rapidly. Several new wagon and black smith shops will be completed in the course of week or so.

BURNING.—The woods to the west of the cit were on fire last evening along the Washingto county road. The fire was burning but feebl and no damage was done so far as could b learned.

STRONG HEAD WINDS.—Strong head win from San Francisco to the mouth of the Colu bia, and heavy clouds of smoke off the Bar, a counts for the long voyage of the steamsh *Idaho*.

REPORTED DROWNED.—A man engaged at o of the fisheries down the river, is reported to ha been drowned on Wednesday. He fell out of small boat while under the influence of liquor.

SPECIAL MEETING.—There will be a spec meeting held at Columbia Engine Co. No. 3, th evening at 7:30. All members are requested be punctually in attendance.

LINN COUNTY FAIR.—The Linn County F will commence on the Fair Ground, near Alba September 26th, and continue through th days.

PROF CHANEY will deliver a free lecture this evening at Oro Fino Theater on Astronomy, Astrology, Free Masonry, Mythology and the Bible, showing the intimate relation which these subjects have to each other. Also, "cast a horoscope" and delineate a nativity according to the ancient rules of astrology. Teachers, students in astronomy, clergymen and mathematicians are especially invited to be present, as well as all who are desirous of "more light" upon the mysteries of the past.

GUSSIE TELFAIR.—This steam propeller reached the wharf yesterday morning from Victoria and way ports. She brought the following list of passengers: Mrs C A Cunningham, Miss G Cunningham, Miss A Cunningham, Miss T Calhoun, Miss M Lacey, Miss A E J Hyland, Mrs Wm Charles and 4 children, Miss Hayes, Capt C P Crandall, D C Ireland, J L Saunders, Pat McAndre, D Hyne, H Grace, Rev P E Hyland, Lt O'Connor, J McDonald, Wells, Fargo & Co's Messenger, and seven others.

BRISTOLIAN.—The ship *Bristolian*, Middleton master, from San Francisco, and loaded with railroad material, crossed the Bar Wednesday evening. From Bristol to San Francisco she was one hundred and sixty-four days, and fourteen days from the latter port to Astoria. She draws nineteen and a half feet, and has on board twelve hundred tons of railroad iron, bars, etc. She comes consigned to Messrs. Hewett, Flowerdew & Co.

DIFFERENCE OF OPINION.—The reported cases of small pox at Walla Walla is thought to have been prematurely made. But one case, is now reported, and about that there exists a difference of medical opinion. It will probably result in nothing serious.

FOOT CUT.—Yesterday one of the men engaged at work in sharpening piles at Flanders' wharf, accidentally cut his foot with an ax, inflicting a severe gash. He was taken to the New York Hotel, and Dr. Glisan summoned to dress the wound.

GOING FOR ANIMALS.—Mr. Dave Long, the clown attached to Mlle Jeal & Co.'s circus, will leave for San Francisco on the next steamer, to bring up several cargoes of wild animals which are to be exhibited at the State Fair.

MORE FIRE.—We learn that fires are raging among the timber environing Kalama. It would be decidedly out of luck if that devoted place was to be left a blackened waste after the recent inundations there.

RISING.—Parties from the Dalles inform us that the burnt district at the Dalles is being built up quite rapidly. Several new wagon and blacksmith shops will be completed in the course of a week or so.

BURNING.—The woods to the west of the city were on fire last evening along the Washington county road. The fire was burning but feebly and no damage was done so far as could be learned.

STRONG HEAD WINDS.—Strong head winds from San Francisco to the mouth of the Columbia, and heavy clouds of smoke off the Bar, accounts for the long voyage of the steamship *Idaho*.

REPORTED DROWNED.—A man engaged at one of the fisheries down the river, is reported to have been drowned on Wednesday. He fell out of a small boat while under the influence of liquor.

SPECIAL MEETING.—There will be a special meeting held at Columbia Engine Co. No. 3, this evening, at 7:30. All members are requested to be punctually in attendance.

Wilted Down.

Ask the man who complains of "wilting down" in torrid weather what he has done to sustain his system under the extra strain imposed on his vitality. He may tell you that he has tried a variety of cathartics to purify his blood and brighten his spirits. Under such treatment, of course, his strength has given way, and his energies have become exhausted. What he requires is a restorative, not a depletant. His blood is thin; his nerves have lost their natural tension, and nature demands to be renovated and reinforced. The means is within the reach of all. For nearly a score of years, Hostetter's Stomach Bitters have been building up broken constitutions, strengthening attenuated frames, and affording comfort, ease, and hope to thousands. As a preventive of the epidemics which make such havoc with the health of the inhabitants of new settlements, this famous tonic is certainly without a rival. Perhaps the principal portion of its world-wide fame is attributable to its astonishing cures of dyspepsia, and all forms of indigestion. But these are not a moiety of its triumphs. All the types of billiousness yield to its persistent use. It is a regulating medicine of the highest order; and its effect upon the secretions, when irregular, are most salutary.

Imposition of the grossest character is sought to be practiced upon the community by vendors, who recommend under the name of "bitters," fiery compounds of a dangerous character, which they attempt to substitute for the great national tonic. Shun all such nostrums, and see that you have the genuine Hostetter's Stomach Bitters, properly authenticated by label, name and stamp, and sold in bottles only.

FINANCE AND COMMERCE.

THURSDAY EVENING, August 31, 1871.

Gold in New York, 112¼.

Currency, buying, 88½; selling, 89½.

Exchange on San Francisco, coin, ¼@½ per cent. discount (or in other words, coin commands a premium of ¼@½ per cent. for exchange payable in San Francisco; we give this explanation as some parties in the country do not understand it); on New York, 1 per cent. prem.

Telegraphic transfers on New York, 1¼@1½ per cent. premium; on San Francisco, ½ per cent. premium.

Notwithstanding remittances from the mining counties are free, and our banks are receiving by every steamer, from California, large sums of coin, there still exists great stringency in the money market. There was sent to the country, with which to meet purchases of wool, not less than $750,000 this summer, which as yet has not found its way back. By inquiries of grain buyers, there has not been less than $500,000 sent to the country to pay for grain purchases, with large amounts yet wanted. Not much, if any, of these sums, amounting in the aggregate to $1,250,000, has found its way back. There is disbursed every month by the Oregon & California Railroad Company and the Oregon Central Railroad, not less than $100,000 (this is from good authority) which is drawn from one of our banks, and in return exchange given on other cities. There is disbursed every month by the North Pacific Railroad Company from $50,000 to $60,000 per month. All of these sums are drawn from this city, and as yet but little, in comparison with the amounts sent to the interior to be disbursed, has found its way back. There was a purchase in the interior of a large land subsidy, or something similar, for which $160,000 was sent forward to meet the purchase, none of which has returned. But, without entering into details, the amounts sent into the country for this month, without going further back, averaged for wheat, railroads, land, locks, etc., not less than $30,000 per day; this is our [illegible] upon information furnished from [illegible].

The Marie L., [illegible], China, is reported outside of the bar. The following is her manifest, as furnished by Wa. Kee & Co., who are the consignees: 500 cases China nut oil, 1,000 mats rice, 280 pkgs China merchandise, and 335 Chinamen.

The *Brizeline*, from Newport, Wales, is in the river; on her way she touched at San Francisco. She brings a cargo of railroad iron for the California and Oregon Railroad Company.

By our San Francisco exchanges we see that the steamer *John L. Stephens* was advertised to leave that port for Portland to-day, and the steamer *Constantine* on Saturday for this port.

The steamer *Gussie Telfair*, from Victoria and Sound ports, arrived this morning.

The bark *Cambridge* was loading at Honolulu, for Victoria, August 4th, and expected to sail on the 10th. Cargo [illegible] by Capt [illegible].

From the San Francisco *Alta* we learn that there is likely to be a combination in prices of freight between the trans-continental railroads and the Pacific Mail Steamship Co. for the purpose of advancing rates. If such a combination is formed, with the advance in tonnage by sail noticed by us a few days ago, an advance in prices for general merchandise must follow.

The San Francisco *Bulletin* says:

Valparaiso dates of July 18th quote wheat at $2 02½, and barley at $3 per 156 lbs. Grain and copper freights to the United Kingdom were quoted at £3 12s 6d to £3, according to ports of loading and discharge. There was a great demand for exchange on England, 60 to 90 day bills closing at 45½@45¾d.

Callao dates of July 28th mention the sailing of the British ship *Devonshire* for Puget Sound, to return with lumber. Oregon Pine had declined to $30 for rough and $35 for dressed. Guano freights to Europe, 60a65s. Brig *Brewster* was to load sugar for San Francisco at $7 50. Ex. on London, 45d.

The volume of business transacted for the past week, under review, was not as large as former weeks, owing to harvesting in the interior, and also to the fact that merchants in the mining counties, and also in Idaho and Eastern Washington Territory are not purchasing much, if any, preferring to wait until they purchase their fall goods, which will be next and following months. We have no marked advance to note in articles of merchandise, but the market exhibits more firmness for nearly everything, with an advance in some, and a tendency to a further advance.

MARKET REVIEW.

BREAD—Soda, picnic and butter, 7c; hardbread, 4½c; pilot, 5c; sugar, 9c; ginger snaps and Jenny Lind, 11c.

BOOTS AND SHOES—Stocks for fall trade large with more en route. Prices are firm at unchanged rates, with demand active.

BUILDING MATERIAL—Local demand very active at prices ranging for rough, $12@14; dressed, $22@30; flooring, $24@28; lath, $3 ₩ M; shingles, $2 50. Eastern hardwood, 17@20c ₩ foot.
